# Discussion questions

## **Adaptation Research:**

1. What does adaptation mean to you and your discipline?
2. What are the grand challenges in this space?

## **University Resources:**

1. What resources exist to support UW-Madison on adaptation?
2. What resources are needed to be successful?

## **Broader Sustainability Research:**

1. What do you see as other areas of opportunity for sustainability research on campus?
2. How can UW-Madison support this research?
